Enbridge Gas Files 2023 Distribution Rates Application

On June 30, 2022, Enbridge Gas applied to the Ontario Energy Board (OEB) for a change in its annual rates effective Jan. 1, 2023 ([EB-2022-0133](#)). These rates have been set using the OEB-approved, five-year rate-setting framework for the period of 2019 to 2023. Enbridge Gas will not be proposing an incremental capital module (ICM) request for funding in 2023 rates, and as such, there will not be a phase 2 of the 2023 rates application.

Our 2023 rate application addresses the incentive rate-setting mechanism (IRM) related elements, which include the annual rate escalation, pass-through costs, capital pass-through adjustments and Parkway delivery obligation rate adjustments.

A range of delivery bill impacts for typical contract rate customers in the EGD rate zone are shown below. Individual bill impacts will vary and depend upon a customer's use of natural gas.

Rate Class	Proposed Delivery Bill Impact Range (%)
Rate 100	3.7 to 3.9 ^{1,2}
Rate 110	4.2 to 4.6 ^{1,2}
Rate 115	3.8 ^{1,2}

Rate 170	(20.4) to (14.8) ^{1,2}
