Nov. 15, 2021

Dear Recipient,

As we approach the winter months, construction activities on the Windsor Line Replacement Project will wind down for the year. We will resume activity in spring 2022 to complete any outstanding clean up and property restoration.

If your property has been affected by this project, you will be contacted in advance of any restoration work by a representative of Enbridge Gas. At this time, you will have the opportunity to address any issues or concerns you might have to ensure you are satisfied with the state of your property after all restoration work has been completed.

Thank you for your patience during construction. Should you have any questions or concerns please do not hesitate to contact me.

Sincerely,

Natasha Carr
