Enbridge Gas Receives Ontario Energy Board Approval for Rate Changes Effective Jan. 1, 2023

Enbridge Gas recently received approval from the Ontario Energy Board (OEB) for rate changes effective Jan. 1, 2023 ([EB-2022-0286](#)). These changes were proposed to the OEB earlier this month as part of the Quarterly Rate Adjustment Mechanism (QRAM) and approved as filed.

QRAM is the mechanism Enbridge Gas uses to review and adjust our rates for changes in natural gas prices. This is done every three months to reflect ongoing changes in the market price of natural gas and to adjust for the difference between the forecasted price of natural gas and actual price from prior periods.

In addition to updating rates in the EGD and Union rate zones in accordance with Enbridge Gas' Board-approved QRAM methodologies, Jan. 1, 2023 rates will also reflect:

- the OEB's Nov. 3, 2022 decision in [EB-2022-0133](#) approving Enbridge Gas' 2023 annual rate application. Our 2023 rate application addresses the incentive rate-setting mechanism (IRM) related elements, which include the annual rate escalation, pass-through costs, capital pass-through adjustments and Parkway delivery obligation rate adjustments. More information on the 2023 annual rate application can be found in our [July 20, 2022 communication](#).
- the disposal of the 2021 deferral and variance account balances ([EB-2022-0110](#)). Clearance of these balances will result in a one-time adjustment being applied to the January 2023 bills of all customers. More information on the 2021 deferral and variance accounts clearing can be found in our [Nov. 29, 2022 communication](#).
