

Incentives, expert advice and free upgrades to save energy and money

It pays to make energy efficiency a priority. Enbridge Gas can help you uncover savings opportunities, reduce costs and keep residents comfortable for less. Take advantage of our three energy conservation incentive programs to maximize your buildings' energy performance.

Affordable Housing Multi Residential

Get up to \$200,000 in incentives to make your multi-family building(s) more efficient. This program is for both non-profit housing providers (including social, municipal, co-ops, shelters, and rent-geared-to-income buildings) and market rate buildings where tenants pay less than the local average rent.

Savings by Design | Affordable Housing New Construction

Get free technical advice from sustainable design experts and receive up to \$120,000 in incentives to build affordable housing that saves energy, reduces environmental impact and improves comfort for residents.

Home Winterproofing Program

Help make your home comfortable year round with FREE energy-saving upgrades. If you and your home qualify, you may be eligible for free insulation, draft proofing and a smart thermostat that will be professionally installed at no cost to you
