Enbridge Gas Receives Ontario Energy Board Approval for Rate Changes Effective April 1, 2024

Enbridge Gas recently received approval from the Ontario Energy Board (OEB) for rate changes effective April 1, 2024 ([EB-2024-0093](#)). These changes were proposed to the OEB earlier this month as part of the Quarterly Rate Adjustment Mechanism (QRAM) and approved as filed.

QRAM is the mechanism Enbridge Gas uses to review and adjust our rates for changes in natural gas prices. This is done every three months to reflect ongoing changes in the market price of natural gas and to adjust for the difference between the forecasted price of natural gas and actual price from prior periods.

In addition to updating rates in the Enbridge Gas Distribution (EGD) and Union rate zones in accordance with Enbridge Gas' Board-approved QRAM methodologies, April 1, 2024, rates will also reflect:

- an increase in the customer-related federal carbon charge and a decrease in the facility-related carbon charge as approved by the OEB in Enbridge Gas' 2024 Federal Carbon Pricing Program (FCPP) proceeding ([EB-2023-0196](#)).
- a one time clearing of the 2022 Deferral and Variance Account and Earnings Sharing account balances and,
- a one time clearing of the 2022 FCPP-related Deferral and Variance account balances.

For more information on the clearance of the 2022 Deferral and Variance Account and Earnings Sharing account balances, the 2022 Federal Carbon Deferral and Variance account balances or changes to the federal carbon charge, please see our [Feb. 26, 2024 newsletter](#).
