

January 2025

Natural gas rates have changed

Rate M1 - Union South
Energy Marketer Customer

New natural gas rates

The Ontario Energy Board (OEB) has approved changes to the rates Enbridge Gas charges its customers effective **Jan. 1, 2025**.

For a typical customer the total annual bill increase will be \$30.36. The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

Customer Charge

The customer charge increased to \$27.91 a month to partially recover some of the fixed costs associated with maintaining a safe and reliable natural gas distribution system.

Delivery to You

The delivery charges that vary with consumption increased based on our forecast cost of delivering natural gas to your home or business. These charges also include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you. The delivery charges on your bill include a charge for the 2024 rate adjustment as approved by the OEB. Details for these rate adjustments can be found in the rate adjustment section below.

Federal Carbon Charge

The federal carbon charge is 15.25 cents per cubic metre (¢/m³). This charge increases annually each April. All of the money collected for this charge goes to the government.

Gas Supply Commodity Charge

The price you pay for the natural gas you use, shown as the gas supply charge on your bill, depends on the terms of your gas marketer agreement.

Rate Adjustments

The OEB has approved a rate adjustment to reflect changes to Enbridge Gas' 2024 rates for the period of Jan. 1, 2024 to Dec. 1, 2024. These rates will be applied to customers' bills from Jan. 1, 2025 to Dec. 31, 2025. For a typical customer, this will result in a charge of approximately \$1.14 that will be included in the Delivery to You section. The total impact on your bill will depend on your usage.

Charges for gas used from Jan. 1, 2025 will be calculated using the new approved rates as shown in the chart. The annualized impact is based on a typical Rate M1 - Union South customer who uses 2,200 cubic metres (m³) per year while buying gas from an energy marketer.
