New natural gas rates

The Ontario Energy Board (OEB) has approved changes to the rates Enbridge Gas charges its customers effective **July 1, 2024**.

For a typical customer the total annual bill increase will be \$4.79. The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

Delivery to You

The delivery charges that vary with consumption increased based on our forecast cost of delivering natural gas to your home or business. These charges also include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you. The delivery charges on your bill include a credit for the clearing of various deferral accounts and a charge for the 2024 rate adjustment as approved by the OEB. Details for these rate adjustments can be found in the rate adjustment section below.

Transportation to Enbridge

The transportation charge has increased by approximately \$0.01 per year for a typical customer due to higher costs for transporting natural gas to Ontario. The transportation charge includes a charge for the 2024 rate adjustment as approved by the OEB. Details for this rate adjustment can be found in the rate adjustment section below.

Federal Carbon Charge

The federal carbon charge is 15.25 cents per cubic metre (¢/m³). This charge increases annually each April. All of the money collected for this charge goes to the government.
