

October 2024

Natural gas rates have changed

Rate M1 - Union South
Energy Marketer Customer

New natural gas rates

The Ontario Energy Board (OEB) has approved changes to the rates Enbridge Gas charges its customers effective **Oct. 1, 2024**.

For a typical customer the total annual bill decrease will be \$0.22. The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

Delivery to You

The delivery charges that vary with consumption decreased based on our forecast cost of delivering natural gas to your home or business. These charges also include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you. The delivery charges on your bill include a credit for the clearing of various deferral accounts and a charge for the 2024 rate adjustment as approved by the OEB. Details for these rate adjustments can be found in the rate adjustment section below.

Federal Carbon Charge

The federal carbon charge is 15.25 cents per cubic metre (¢/m³). This charge increases annually each April. All of the money collected for this charge goes to the government.

Visit enbridgegas.com/federalcarbonprogram for more information.

Gas Supply Commodity Charge

The price you pay for the natural gas you use, shown as the gas supply charge on your bill, depends on the terms of your gas marketer agreement.

Rate Adjustments

The OEB has approved a rate adjustment to reflect the difference between the amount customers paid for the energy conservation program (DSM) from Jan. 1 to Dec. 31, 2021 and the actual costs incurred. On October bills, this will appear as a one-time refund of approximately \$1.67 for a typical customer.

The OEB-approved rate adjustment to reflect the changes to Enbridge Gas' 2024 rates to recover the revenue variance between the approved effective date of Jan. 1, 2024 and the implementation date of May 1, 2024, will continue to be applied from May 1, 2024 to Dec. 31, 2024 and will be included in the Delivery to You, Transportation to Enbridge and Gas Supply Commodity sections. The total impact on your bill will depend on your usage.

The OEB-approved rate adjustment to reflect the clearance of various deferral and variance account balances will continue to be applied from May 1, 2024 to Dec. 31, 2024 and will be included in the Delivery to You charge. The total impact on your bill will depend on your usage.

Charges for gas used from Oct. 1, 2024 will be calculated using the new approved rates as shown in the chart. The annualized impact is based on a typical Rate M1 - Union South customer who uses 2,200 cubic metres (m³) per year while buying gas from an energy marketer.

Charges	Rates at Oct. 1, 2024	Annual increase or (decrease)
Customer Charge	\$26.85 Monthly fee	No change
Delivery to You
