

Attestation Form

Home Efficiency Rebate (HER)

Mechanical System – Contractor Qualification

The purpose of this form is to seek attestation from the contractor retained to install the mechanical equipment or system (ground source heat pump, air source heat pump, cold climate air source heat pump or heat pump water heater) that:

- The contractor has the required qualifications for the installation of the mechanical equipment or system and that the equipment or system is properly sized for the home.

Note: It is recommended that the toolkit for air source heat pump sizing and selection be used by the mechanical system contractor to determine the optimal sizing needs.

It is highly recommended that the homeowner:

- Have this form completed by the contractor retained to install the mechanical equipment or system.

I _____,
(Name and surname)

as a representative of _____,
(Name of the installation company)
