Re: Wexpro Acquisition of Non-Consent Interest in Bruff Unit 53 Well

In accordance with the August 9, 2004 Wexpro Agreement Guideline Letter "regarding assignment of marginal intervals to Wexpro to facilitate Development Gas Drilling under terms of the Wexpro Agreement," Wexpro requests the Hydrocarbon Monitor's approval to acquire a relinquished, or "non-consent" interest in the Bruff Unit 53 Well. Paragraph 6 of the August 9, 2004 Guideline Letter states as follows:

Likewise, when third parties relinquish their interests by electing not to participate in a drilling proposal, Wexpro shall have the right to acquire such non-consent interests for development gas drilling under the terms of the Wexpro Agreement, subject to the pre-approval of the Hydrocarbon Monitor.

The availability of this interest arose when Anadarko Production Company ("APC") and Kerr-McGee Oil, Gas Onshore LP ("Kerr-McGee") elected to not participate for their respective shares in the drilling of this well. QEP is not involved in the drilling of this well.

Wexpro currently owns an approximate 59.3% working interest in the well. APC owns approximately 7.4% working interest in the well. Kerr-McGee owns approximately 33.3% working interest in the well. Hydrocarbon Monitor approval would allow Wexpro to obtain 100% working interest in the well, which we expect to be commercially productive in the Frontier Formation and to provide additional cost-of-service reserves for this field.

Under the Operating Agreement, Wexpro would retain this increased ownership until 300% of the drilling, testing and completing costs are recovered in addition to 100% of the operating costs, at which time ownership of the relinquished working interests will revert back to APC and Kerr-McGee.

This letter applies to only the Bruff Unit 53 well. Any similar farmouts of non-consent interests will require separate Hydrocarbon Monitor approval after appropriate review.

.....

As the Wexpro Hydrocarbon Monitor, I agree with the request of Wexpro to elect to take APC and Kerr-McGee relinquished non-consent interest in the Bruff Unit 53 well in accordance with the August 9, 2004 Guideline Letter and recommend approval of this request.
